The following posting was submitted by Dan Landt, Acting Dean of Instruction, Richard J. Daley College on April 29, 2002. Any questions can be sent to dlandt@ccc.edu

We are proud to announce that

Professor M. Vali Siadat

has been awarded the

2002 Distinguished Teaching Award
of the Mathematical Association of America
Illinois Section

This is the highest form of state recognition awarded to a college teacher of mathematics. In 2001, this same award was conferred upon Professor Paul Sally, a faculty member at the University of Chicago.

Earlier this academic year, Dr. Siadat won the Excellence in College Teaching Award of the Illinois Council of Teachers of Mathematics. A project headed by Dr. Siadat and Professor Paul Musial has won both national and state awards. Dr. Siadat is now a candidate for the prestigious Haimo award of the Mathematical Association of America.

Dr. Siadat, you make us all proud!
